

Deepu Singh

GCP DATA ENGINEER

Hyderabad, Telangana, India | gofordeepu@gmail.com
[linkedin.com/in/gofordeepu](https://www.linkedin.com/in/gofordeepu) | github.com/gofordeepu | gofordeepu.github.io

PROFESSIONAL SUMMARY

GCP Data Engineer with 5+ years of experience delivering cloud data pipelines across retail and insurance. Hands-on with BigQuery, Cloud Composer, Apache Airflow, Python, SQL, GCS, and Pub/Sub, plus Azure Data Factory, Databricks, PySpark, and Delta Lake. Experience includes API-based ingestion, layered transformations, CI/CD automation, data lineage, and production operations.

CORE SKILLS

GCP and orchestration: BigQuery, Cloud Composer, Apache Airflow, Google Cloud Storage, Pub/Sub

Azure and processing: Azure Data Factory, Databricks, PySpark, Delta Lake

Engineering: Python, SQL, GitLab CI/CD, Git, GitHub, Docker, Jenkins, Linux

Integration and analytics: REST APIs, Informatica, Tableau

PROFESSIONAL EXPERIENCE

GCP Data Engineer | **Mattel**

May 2026 - Present | Hyderabad, India | Domain: Retail

- Build and maintain Cloud Composer and Airflow DAGs that ingest advertising data from Reddit, Pinterest, Meta, and Google Ads.
- Use Python, SQL, BigQuery, Google Cloud Storage, and Pub/Sub to orchestrate data movement and prepare trusted analytical datasets.
- Monitor scheduled workflows and support reliable day-to-day pipeline operations for Mattel's retail data platform.

Azure Data Engineer | **Tata Consultancy Services**

Jan 2025 - May 2026 | Client: Manulife | Domain: Insurance

- Built and supported Azure Data Factory pipelines for data ingestion on the Manulife insurance account.
- Worked across raw, bronze, and silver data movement, with Databricks and PySpark transformations supporting curated gold-layer outputs.
- Used Delta Lake patterns and production monitoring to keep recurring data workflows dependable and traceable.

Cognizant | Career Progression

Dec 2020 - Dec 2024 | Client: Mattel | Domain: Retail

Associate: Oct 2023 - Dec 2024 | **Programmer Analyst:** Jul 2021 - Oct 2023 | **Intern:** Dec 2020 - Jul 2021

- Delivered and supported Airflow and BigQuery workflows for Mattel's retail data platform using Python and SQL.
- Implemented GitLab CI/CD so DAG changes merged to the main branch were deployed automatically to the Cloud Composer GCS bucket.
- Built a Python lineage utility that parsed Informatica logs and BigQuery metadata to trace source-to-target relationships across data workflows.
- Contributed to an Airflow upgrade by resolving dependencies and migrating DAGs, connections, variables, and supporting configuration.

SELECTED PROJECTS

Emotion-Aware Music Player | **M.Tech Final Project**

- Designed a music player that scans a user's face, uses a CNN-based model to classify the visible mood, and selects songs from the corresponding emotion category.

Technologies: Python, CNN, Computer Vision, Machine Learning

EDUCATION

M.Tech in Data and Computational Science | Indian Institute of Technology Jodhpur | 2022 - 2024

B.Tech in Applied Electronics and Instrumentation | Future Institute of Engineering and Management | 2017 - 2021

CERTIFICATIONS

Microsoft Certified: [Azure Fundamentals](#) | Microsoft

Microsoft Certified: [Azure Data Fundamentals](#) | Microsoft

Additional: JavaScript (Intermediate) (HackerRank), SQL (HackerRank), Problem Solving (HackerRank)
